Step into the world of flexxica color palettes

Materials and colors mean everything. Ambience. Atmosphere. Identity. We want to influence and inspire the world of office interiors with our take on materials and colors. Bright and light. Dense and deep. Mix and match our color palettes for any creative design purpose.

ARCHI felt ecoPET 12 mm

EN The high-quality PET sound panels are robust, durable, and have a slightly textile surface that can be washed. They have excellent sound-absorbing properties, are flame-resistant and recyclable.

DE Hochwertige PET-Akustikplatten sind massiv, strapazierfähig, mit einer leicht textilen Oberfläche, die gewaschen werden kann. Sie haben hervorragende Schalldämmeigenschaften, sind schwer entflammbar und können recycelt werden.

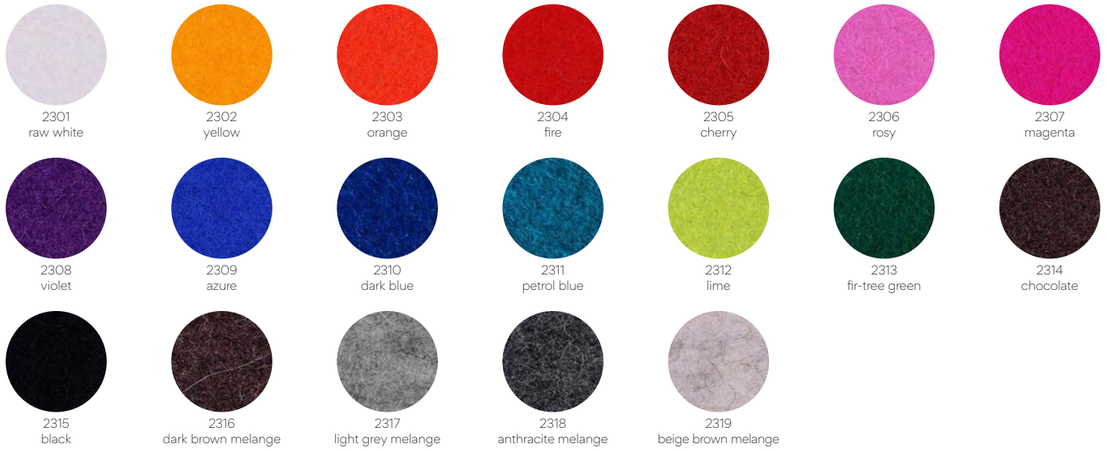
Flexxica wool felt 5 mm

EN Flexxica wool felt color palette is high-quality 5 mm thick felt. Wool felt has many technical uses, including, among others, in acoustics. The natural properties of wool make this felt not only look designer but also absorb noise and sound perfectly.

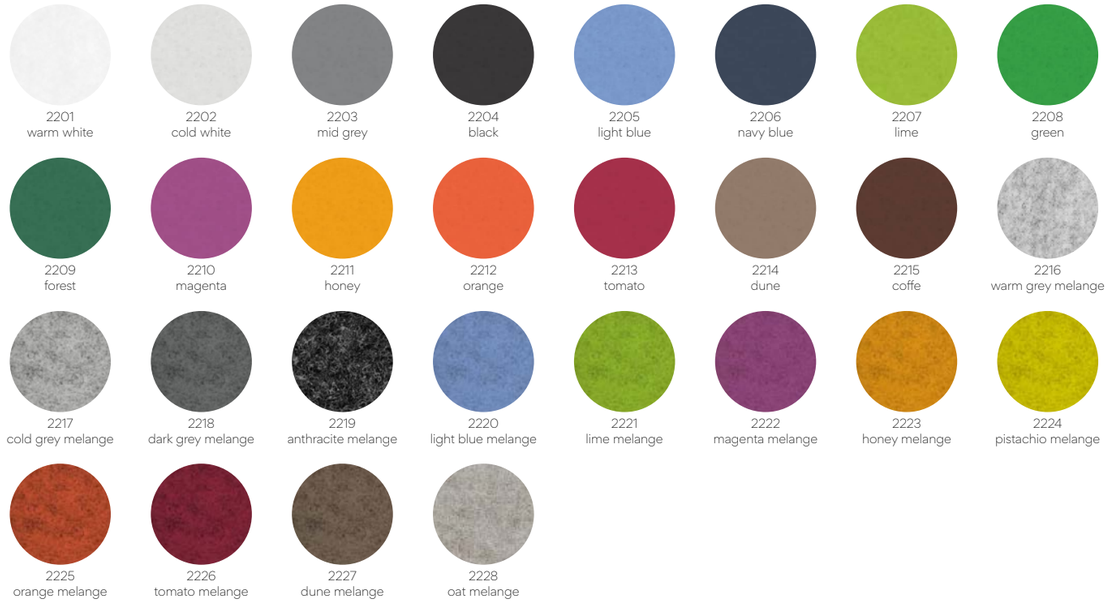
DE Die Farbpalette von Flexxica Wollfilz ist hochwertiger 5 mm dicker Filz. Wollfilze haben viele technische Anwendungen, u. a. in der Akustik. Die natürlichen Eigenschaften der Wolle verleihen diesem Filz nicht nur ein Design-Look, sondern auch eine perfekte Dämpfung von Lärm und Geräuschen.



Flexxica felt 5 mm

EN Flexxica felt color palette is a wide range of flame-retardant design felts with a velour finish and high noise reduction properties. They are available in many colors, ideal for many decorative projects, including upholstery and interiors.

DE Die flexxica-Farbpalette für Filze ist eine große Auswahl an schwer entflammbaren Designfilzen mit Velours-Finish und hohen Geräuschminderungseigenschaften. Sie sind in vielen Farben erhältlich, ideal für viele dekorative Projekte, einschließlich Polsterung und Innenausstattung.



Synergy fabrics by Camira

EN The Camira fabrics color range features 75 shades of Synergy woolen fabric. The fabric is made of the highest quality New Zealand wool and blended only with 5% polyamide. It is very soft, strong, has an impressive wear resistance, and in combination with other materials used in our luminaires, has excellent acoustic characteristics.

DE Die Farbpalette von Camira fabrics umfasst 75 Farbtöne des Synergy-Wollstoffs. Der Stoff ist aus hochwertigster neuseeländischer Wolle gefertigt und mit nur 5% Polyamid verbunden. Es ist sehr weich, stark, hat eine beeindruckende Abriebfestigkeit und hat in Kombination mit anderen Materialien, die in unseren Leuchten verwendet werden, hervorragende akustische Eigenschaften.

Gabriel Chili

EN Chili is a pioneering upholstery fabric distinguished by its fusion of sustainable materials and exceptional fire resistance. Made from 75% post-consumer recycled flame retardant polyester, the fabric sets new environmental standards for fire retardant fabrics. Chili blends unicolored and melange fibers to create a simple yet distinctive two-toned grid design.

DE Chili ist ein wegweisender Bezugsstoff, der sich durch die Verschmelzung nachhaltiger Materialien und außergewöhnlicher Feuerbeständigkeit auszeichnet. Der Stoff besteht zu 75% aus recyceltem, flammhemmendem Polyester und setzt neue Umweltstandards für flammhemmende Stoffe. Chili mischt einfarbige und melierte Fasern, um ein einfaches, aber unverwechselbares zweifarbiges Gitterdesign zu schaffen.

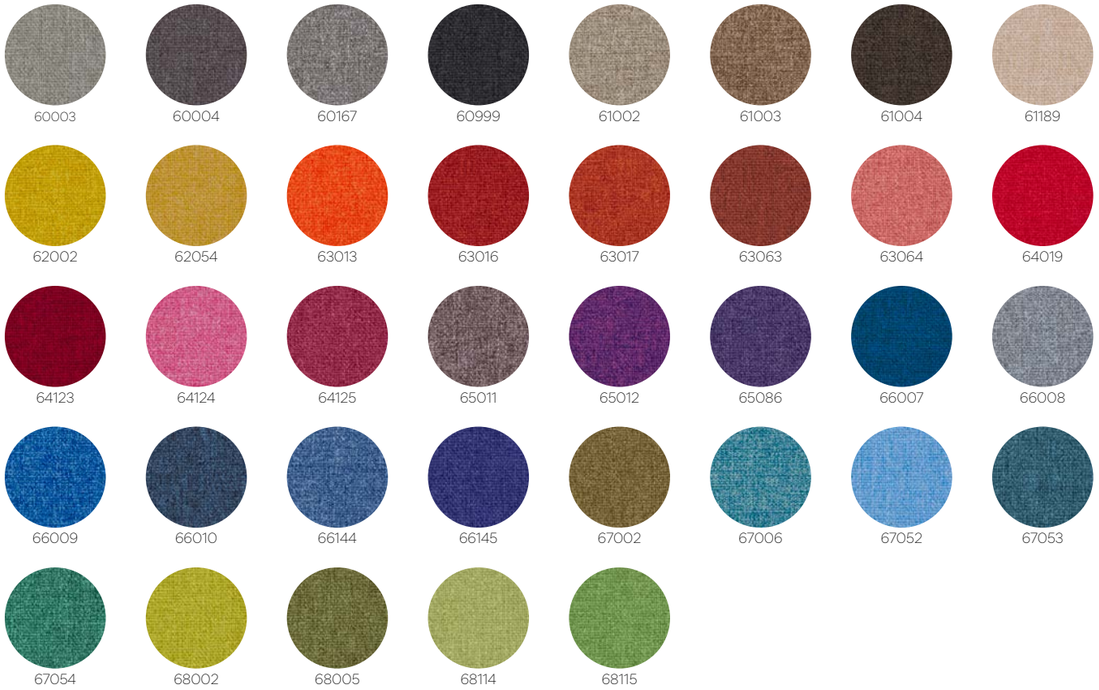
Gabriel Medley

EN Medley is woven in 100% polyester melange yarn with a simple, geometric structure. The tight texture and the changing structure of the yarn give the fabric an intense color depth and a lively surface in multiple shades. The weave structure accentuates the richness of every single nuance and creates a discreet color play across the fabric's surface. Nuances fuse gently and with varying saturation and intensity, depending on the incident angle of the light.

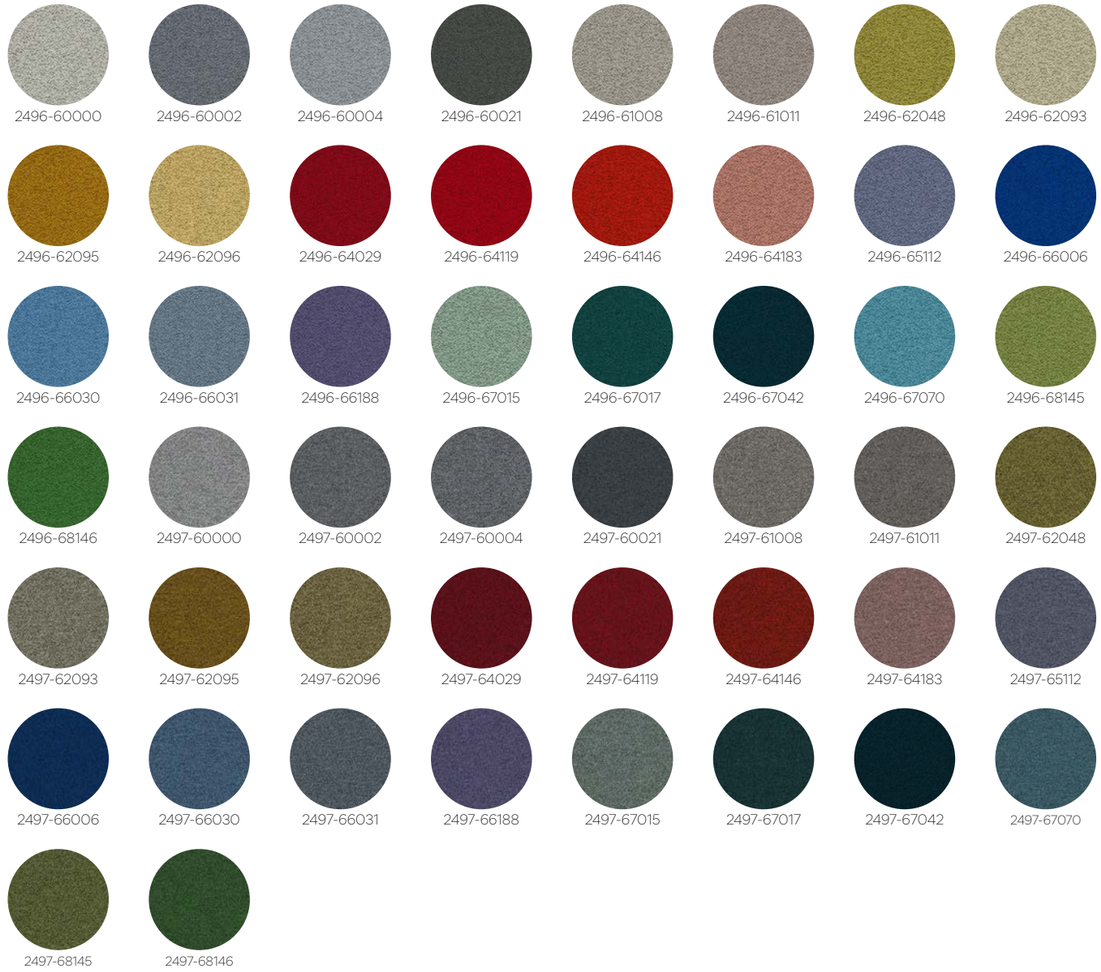
DE Medley ist aus 100% Polyester-Mischgarn mit einer einfachen, geometrischen Struktur gewebt. Die straffe Textur und die wechselnde Struktur des Garns verleihen dem Stoff eine intensive Farbtiefe und eine lebendige Oberfläche in mehreren Farbnuancen. Die Webstruktur betont den Reichtum jeder einzelnen Nuance und erzeugt ein dezentes Farbspiel auf der Stoffoberfläche. Je nach Einfallswinkel des Lichts verschmelzen Nuancen sanft und mit unterschiedlicher Sättigung und Intensität.



Gabriel Mica

EN Mica is a cross-functional, two-toned crepe fabric with a graphic yet discreet melange effect. The classic crepe structure is given a contemporary twist, and with its sparkling, crisp, and fresh expression, Mica stands out as an exclusive, sophisticated and updated crepe fabric.

DE Mica ist ein funktionsübergreifender, zweifarbiger Kreppstoff mit grafischem und dennoch dezentem Melange-Effekt. Die klassische Kreppstruktur erhält eine zeitgemäße Note, und mit seinem funkelnden, klaren und frischen Ausdruck sticht Mica als exklusiver, raffinierter und aktualisierter Kreppstoff hervor.



Gabriel Noma

EN Upholstery fabric Noma is distinguished by its attractive, durable, and two-toned melange design, excellent fire resistance, and environmentally friendly. Made from 50% post-consumer recycled flame retardant polyester, Noma is an eco-friendly alternative to standard flame retardant polyester fabrics. It meets all common European fire safety standards.

DE Der Bezugsstoff Noma zeichnet sich durch sein attraktives, strapazierfähiges und zweifarbiges Melange-Design, hervorragende Feuerbeständigkeit und Umweltfreundlichkeit aus. Noma besteht zu 50% aus recyceltem, flammhemmendem Polyester und ist eine umweltfreundliche Alternative zu standardmäßigen flammhemmenden Polyesterstoffen. Es erfüllt alle gängigen europäischen Brandschutznormen.

Gabriel Select

EN Select is a classic woolen upholstery fabric distinguished by its underplayed, uncolored elegance and basic, authentic look that exudes sublime craftsmanship and first-class quality. The fabric's tightly woven relief structure adds depth and textural dimension and brings the solid colors to life in a delicate interplay of light and shadow.

DE Select ist ein klassischer Wollbezugsstoff, der sich durch seine unaufdringliche, ungefärbte Eleganz und seinen authentischen, authentischen Look auszeichnet, der höchste Handwerkskunst und erstklassige Qualität ausstrahlt. Die dicht gewebte Reliefstruktur des Stoffes fügt Tiefe und strukturelle Dimension hinzu und erweckt die Unifarben in einem zarten Spiel von Licht und Schatten zum Leben.

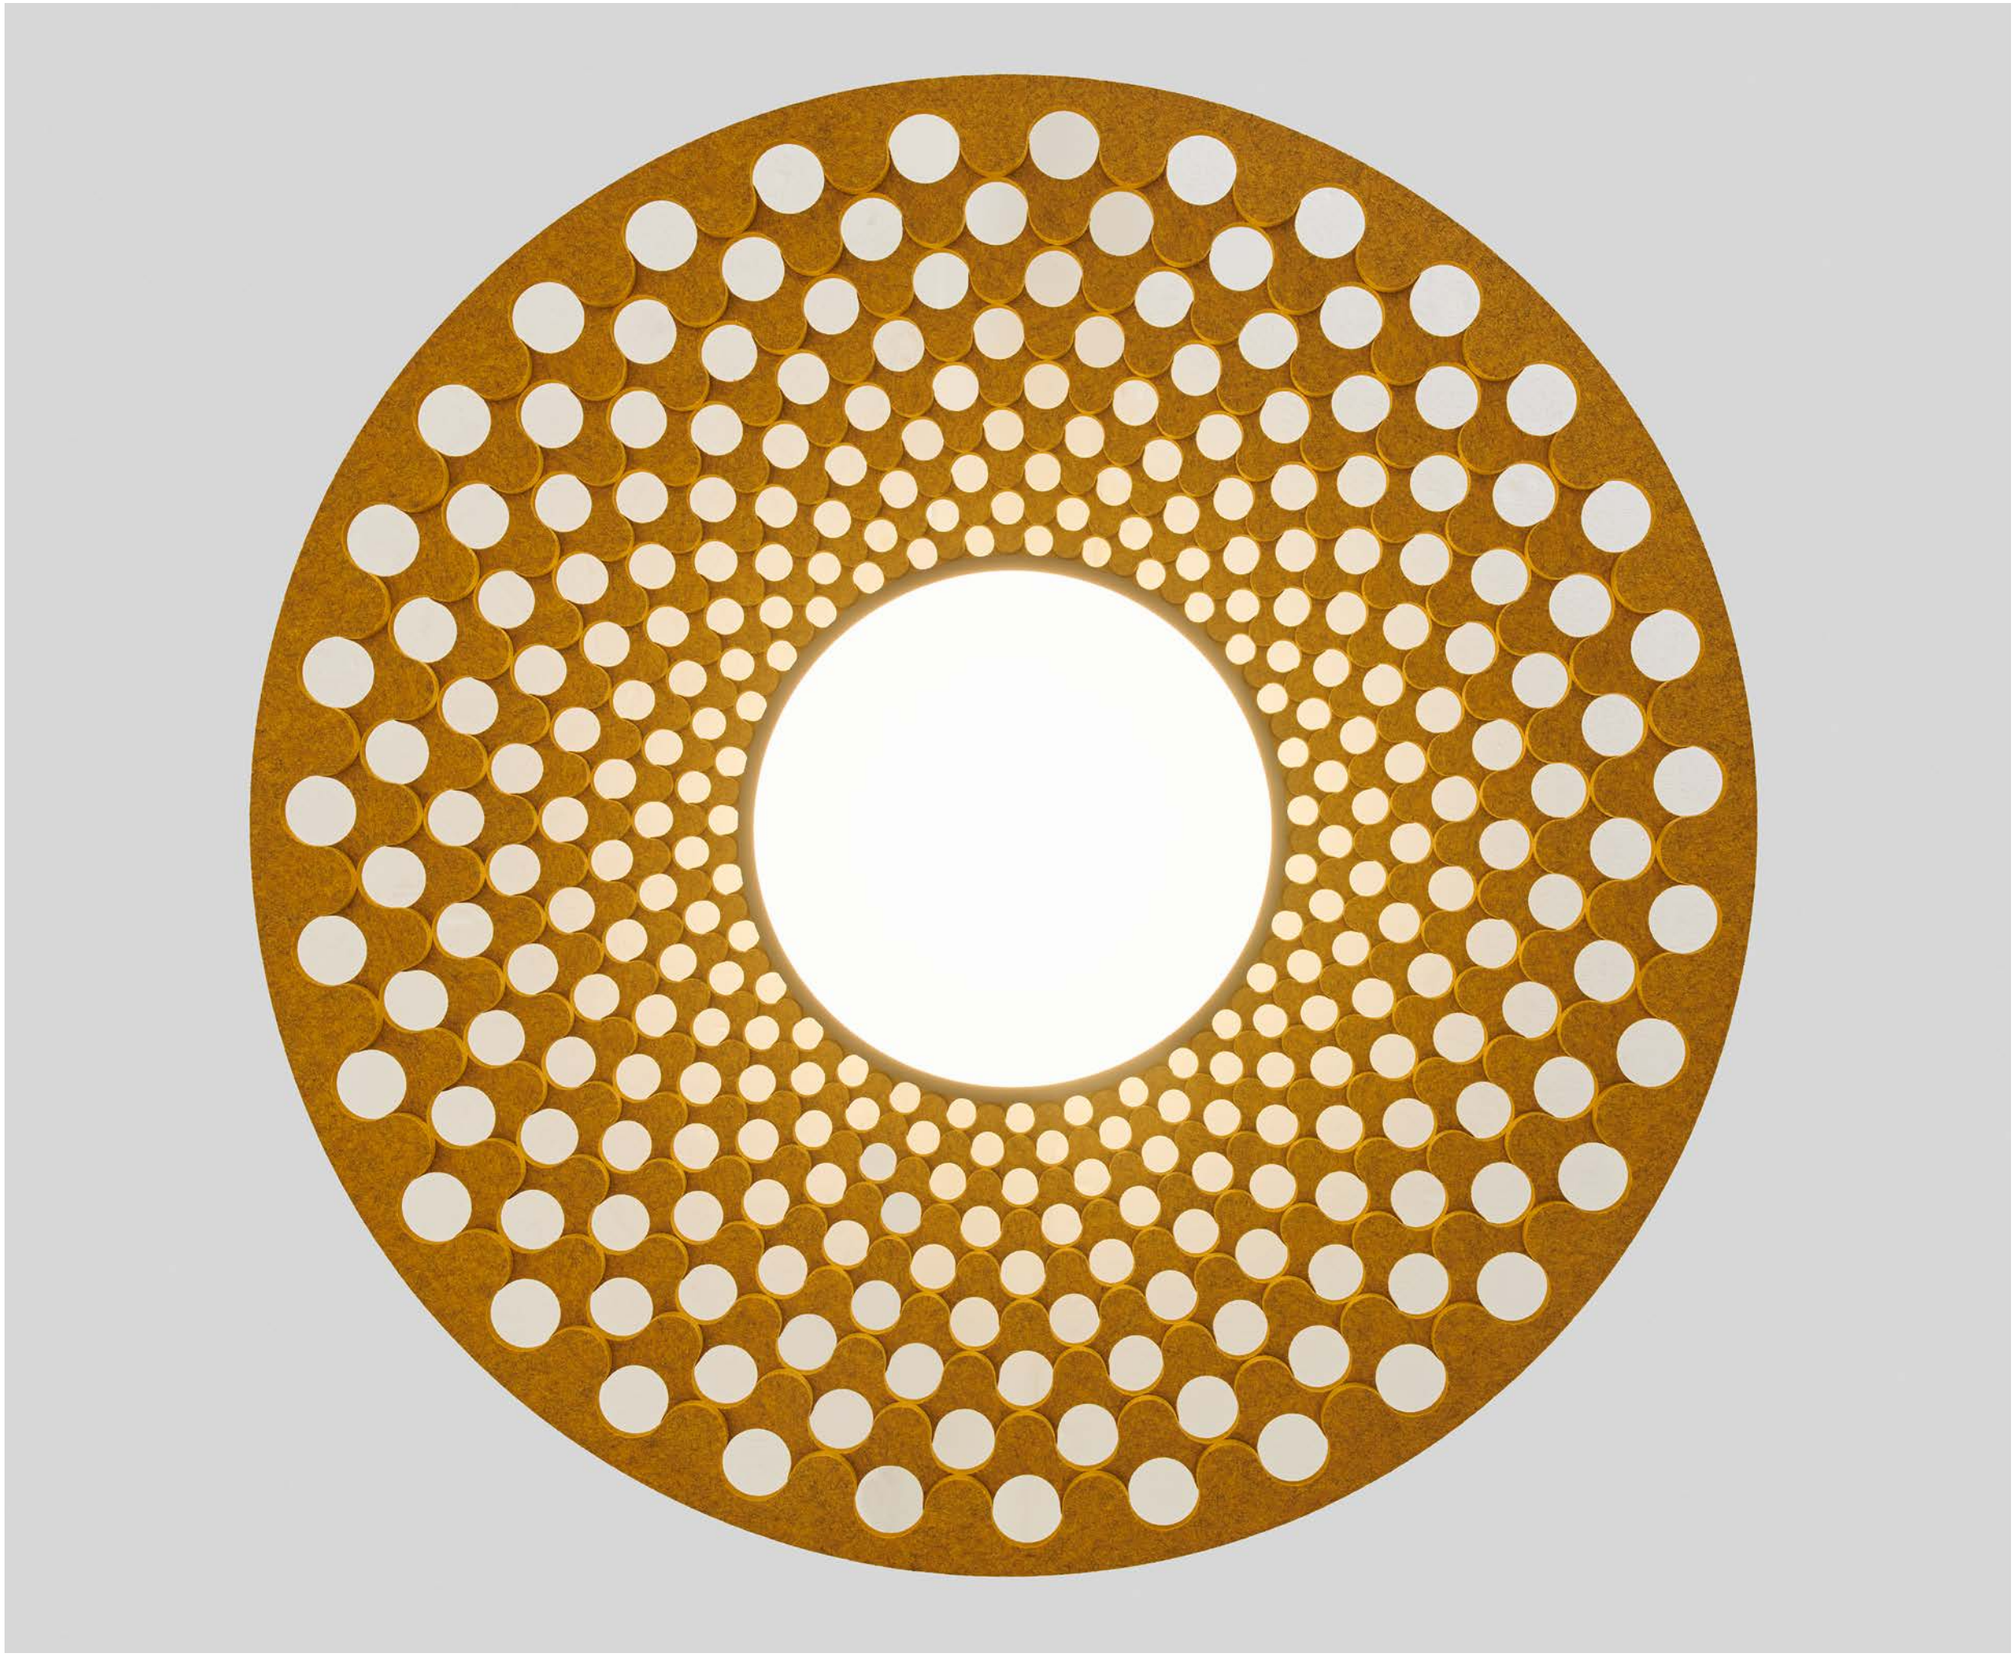
Color

Still undecided about which color to choose from our color palettes?

Scan the QR code and look closely at flexxica materials and colors!

We are constantly working on expanding our color palettes with new eco-friendly materials and suppliers that care about the environment as much as we do.

Our current color palettes are always online. Just scan the QR code above!



Guidelines for cleaning and maintenance of materials used in flexxica luminaires.

To maintain the beautiful color and appearance of flexxica lighting fittings, we recommend gentle vacuuming with a soft tip, preferably weekly.

Stain removal – the golden rule
Remove the stain as soon as possible. Most stains can be removed with lukewarm water, possibly with the addition of a neutral detergent.

Merino wool felt
Wool is antistatic and does not attract dirt like other fabrics. Wool is also water-repellent, so the liquids slowly penetrate the fabric.
Cleaning: First, soak up as much liquid as possible with a white kitchen towel or cloth. If the stain has dried, remove as much as possible with a vacuum cleaner. Wipe carefully with a clean white cloth.

Upholstered material
Upholstery in flexxica luminaires is highly versatile and durable. The material is antistatic and fireproof, so stains are easily removed.
Cleaning: Do not wet the entire lampshade. Always use a clean white cotton cloth and only use small amounts of cleaning agent at a time.

EcoPET material
The ecoPET is made of 60% recycled PET bottles. It is straightforward to maintain, and stains can be removed easily and hassle-free.
Cleaning: Never rub hard to remove a stain. Always use a clean white cotton cloth with a bit of detergent.

WARNING!
Benzene, acetone, and similar solvent-based products may discolor the materials of the flexxica luminaires. Before use, apply a small amount of the product to an inconspicuous spot to ensure it doesn't cause any damage or discoloration.
